

PRESS RELEASE

Bank Al-Maghrib holds a high-level conference on:
«**Transformational Recovery: Seizing Opportunities from the Crisis**»

Rabat, June 23, 2022

Bank Al-Maghrib holds, in partnership with the IMF and the IMF Economic Review, a high-level conference in Rabat on June 23-24, 2022, under the theme: «Transformational Recovery: Seizing Opportunities from the Crisis». The event brings together public sector leaders from central banks and ministries of finance, senior officials from international organizations as well as experts from academia. It comes ahead of the Annual Meetings of the World Bank Group and the IMF, which will take place in Marrakech in October 2023.

Participants will address the short- and medium-term challenges facing emerging and developing economies in the post-Covid-19 era, which have been exacerbated by the effects of the Ukraine war. They will explore the implications of structural change for the global economy and share their experiences on artificial intelligence and trade integration.

In addition to challenges related to public finance management, participants will address issues of gender, inequality and inclusive growth. The conference will also focus on development stakes, including challenges related to the informal sector. In the field of finance, discussions will examine the future of public banks and issues of corporate solvency. Against the background of the fintech expansion, speakers will explore corporate financial inclusion in emerging countries.

Given the recent events, discussions will also tackle subjects like food, energy dependency and the climate transition. Finally, participants will share their experiences regarding worker mobility and policies to revive the labor market.
